Interesting development in the testimony of to-day in the trial of Nan Patterson. charged with the murder of Caesar Young, came when Coroner's Physician O'Hanlon took the witness stand for the wounded. Hempstead is to-night under the prosecution and said in reply to questions that he had changed his opinion that Young had committed suicide.

Doctor O'Hanlor performed the autopsy on Young's body. In his testimony to-day he said:

"My present opinion is not the opinion I formerly expressed to Coroner Brown." The counsel for the defense, Lawyer Levy, asked the doctor: "Did you report this case to Coroner Brown as one of suicide?"

When Doctor C'Hanion replied in the "Do you now say that in your best judgment it is a case of suicide?" "No, I won't say that."

"Indn't you say so once?" was asked. "I did, but I think now it is a case for

LIVES WITH SHOT THROUGH BRAIN

George B. Synette Alive and Able to Talk Two Days After Attempt to End Life.

George B. Synette, 34 years old, of No. 3116 Lucas avenue, who shot himself through the head Monday morning at 19 o'clock, and whom the physicians at the City Hospital believed could not possibly live more than a few minutes, is still alive and is able to talk rationally,

The remarkable vitality shown by Svnette is a mystery to the surgeons who operated on him and took from his head a spoonful of the cerebrum which had been torn by the passage of the builet through the upper part of his head.

The bullet entered his temple and ranged upward through the brain, half an inch beneath the surface, and came out through the top of the head, leaving an open wound. The brain protrudes through the wound, and parts of it have been removed.

For a while after being taken to the hospital Synette could not speak, but he has now regained his power of articulation and talks to his wife and the attendants. He does not seem to have lest any of his mental powers, and even talks to the nurse when his wounds are being dressed.

It is the first time in two years that the hospital has had a similar case, and it is still thought that there is no chance for Synette to live.
